

Christmas Stocking Tree Decoration

Materials

Small pieces of felt in two colours

25 cm silver cord or embroidery thread

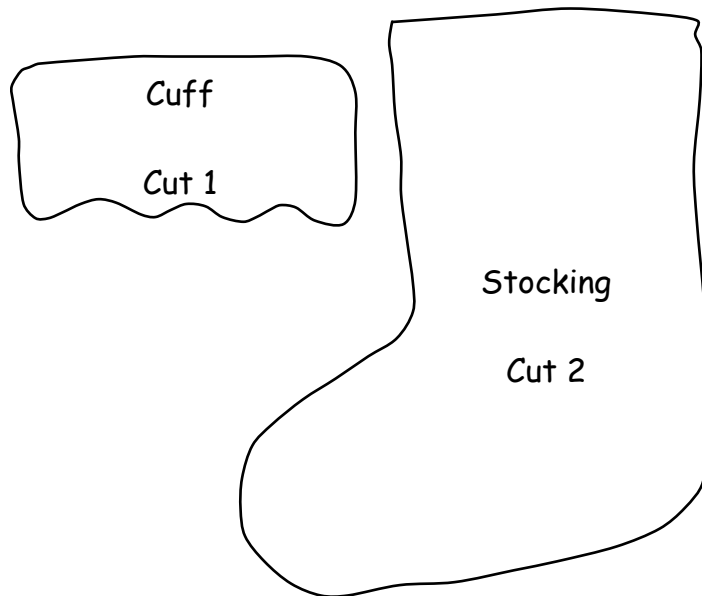

Sequins

Small beads

Sewing cotton

Small amount of toy stuffing

Templates

Use running stitch throughout and the picture as a guide:

- Pin the cuff to one of the stocking shapes. This will now be the front.
- Sew sequins and beads to the front stocking. (Bring the thread up through the felt, then a sequin and then a bead. Return the thread back down through the hole in the sequin and through the felt.)
- Pin the front to the back, trapping the knotted part of the cord between the two layers.
- Stitch the two layers together, make sure the cord is secure. Leave a small gap for the stuffing.
- Stuff lightly and complete sewing round the stocking.

Cord or embroidery thread
Knot ends together and
sew between the front and
the back stocking pieces
